GST-800 vs GST-1000 Compare Sheet

Standard tracked flail mower decision aid

Comparison point	GST-800	GST-1000
Machine role	Compact standard flail route	Core standard flail balance point
Cutting width	800 mm	1000 mm
Engine route	Gasoline 459 (16HP) / Diesel 192F (12HP)	Gasoline 459 (16HP) / Diesel 192F (12HP)
Net weight	338 kg	346 kg
Blade quantity	32	40
Track width	150 mm	150 mm
Control system	C7 standard / industrial remote optional	C7 standard / industrial remote optional
Lift system	Manual standard / hydraulic remote optional	Manual standard / hydraulic remote optional
Best fit	Tighter access and narrower rough-grass work	Broader orchard work and heavier routine vegetation control

Choose GST-800 when compact access still matters. Choose GST-1000 when the site already needs the main 1000 mm standard-flail balance point for broader daily routine output.
